

ALL POINTS PAYMENTS

YOUR **PAYMENTS** SIMPLIFIED

Your Payments Simplified

What is All Points Payments?

All Points Payments is a suite of market leading payments services including the innovative PayBrix collections product. It is an invaluable tool for every business, from sole operator startups looking to sell products online, to established companies who transact millions of instances every day worldwide.

**ALL POINTS
PAYMENTS**
MAKES DIGITAL
TRANSACTIONS EASY.

Key Products:

- Access to PayBrix, making recurring **payment collections** easy for you and your clients
- A virtual terminal for taking payments over the phone, viewing transactions, making refunds and cancelling transactions - invaluable for office and call centre operations
- Hosted payment page solutions to provide a seamless customer experience
- Bank brokering services via the many acquiring banks All Points Payments is connected to around the globe
- A secure, robust **payment gateway** & merchant services platform

Why Choose All Points Payments

All Points Payments scales to suit your needs - whether that be occasional small once-off transactions, multiple simultaneous large transactions and anything in between, our services wrap around your products seamlessly.

Our fraud prevention practises minimise your potential exposure to lost revenue and safeguard your business.

More Product Essentials:

- A proven track record of scalability and customisation
- Ability to take large one-off transactions, single micropayments, **recurring monthly and annual payments**
- Automated invoicing
- Use any type of card (Visa, MasterCard, etc), anywhere in the world
- Ability for customers to save their card for future use
- Tech support to build our solutions into your website and product
- Essential international reach
- **Fraud prevention** and reduction practices to protect your money
- Lower transaction fees

Additional Features

- Access to PayBrix, our market leading **payments collections suite**, which ensures your recurring payments are automatically collected and payment is run through our servers in real-time
- Payments can be taken anytime, anywhere, regardless of whether you are in the office or not
- Staff are freed up from slow and costly traditional cash management scenarios, allowing them to be deployed into other areas to help grow your business

- Click to pay directly from mobile devices

About Us

Sremium Ltd, headquartered in Dublin, Ireland, specialises in mobile remote payments, telecommunications, back office service solutions and Business Process Outsourcing (BPO) services. We provide our clients the opportunity to leverage our extensive experience in designing and building complete end to end platforms, telecoms infrastructure, payment architecture and system integration. We have been writing best in class software and providing commercial services to our global client base since 2003.

All Points Payments is a technology company that have been offering payment solutions since 2008. We bridge the gap between businesses and merchant banks and can enable you to process payments effectively, efficiently and internationally.

We use our technology expertise to develop an innovative, bespoke payment solution that ensures your business can overcome any payment challenges and are ahead of your competitors.

Our customers choose us because they can trust our payment intelligence, products, technology and know that we endeavor to provide them with the best gateway and acquiring rates by brokering with a number of banks on their behalf.
